4. Advisory Business

- A.** Stephens Consulting, LLC, d/b/a Stephens Wealth Management Group, d/b/a Pearl Planning, d/b/a (the “Registrant”) is a limited liability company formed in the state of Michigan on March 31, 2020. The Registrant became registered with the U.S. Securities and Exchange Commission in July 2021. The Registrant is principally owned by Sheryl Stephens. Ms. Stephens is also the Registrant’s Managing Member.

B. INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary and non-discretionary investment advisory services on a fee basis. Registrant’s annual investment advisory fee may include investment advisory services, and, to the extent specifically requested by the client, financial planning and consulting services. In the event that the client requires extraordinary planning and/or consultation services (to be determined in the sole discretion of the Registrant), the Registrant may determine to charge for such additional services, the dollar amount of which shall be set forth in a separate written notice to the client.

The Registrant provides investment advisory services specific to the needs of each client. Before providing investment advisory services, an investment adviser representative will ascertain each client’s investment objectives. Thereafter, the Registrant will recommend that the client allocate investment assets consistent with the designated investment objectives. The Registrant primarily recommends that clients allocate investment assets among various individual equity (stocks), debt (bonds) and fixed income securities, mutual funds and/or exchange traded funds (“ETFs”) in accordance with the client’s designated investment objective(s). Once allocated, the Registrant provides ongoing monitoring and review of account performance, asset allocation and client investment objectives.

The AMS Managed Programs

The Registrant may use several managed programs available through Raymond James & Associates (“RJA”). Specifically, the Registrant engages the Asset Management Division (“AMS”) division of RJA to provide discretionary investment management services as a sub-advisor.

For certain AMS Managed Programs, RJA also retains an unaffiliated investment manager (“Manager”) as a sub-advisor to RJA. This Manager provides discretionary investment management of the client’s portfolio through RJA, making the investment decisions and placing the trades in the client’s account. The Registrant then monitors the client’s account to ensure that the Program selected and the Manager RJA has selected continue to be consistent with the client’s investment objective. The AMS Managed Programs available to our clients through RJA are described below.

Assets in these accounts will be invested and reinvested as RJA or the Manager deem in the client’s best interest to achieve investment objectives identified by the Registrant, without regard to holding period, portfolio turnover or resulting gain or loss. If a participating client informs the Registrant of a change in the client’s financial situation or investment objectives, the Registrant assesses the continued appropriateness of the previously selected investment discipline(s) and makes changes as the Registrant deems appropriate. Similarly, if RJA changes its opinion of a Manager or investment discipline, RJA will ask the Registrant to select a new Manager or investment discipline for a participating client.

The Freedom Program

The Freedom Program allocates client assets through mutual fund or exchange traded fund (“ETF”) management, based upon the client’s investment objectives and risk tolerances. A participating client appoints the Registrant as their investment advisor to select the appropriate investment strategy and to monitor performance on a continuing basis.

RJA serves as sub-advisor to the Registrant for Freedom accounts and has discretionary authority over these accounts. As sub-advisor, RJA provides asset allocation investment strategies and respective target allocations, selects and monitors investments in the strategies, and rebalances Freedom accounts annually based on variance from the target allocation. In addition, RJA or its affiliates perform administrative and brokerage services for Freedom accounts.

Clients most appropriate for the mutual fund version of Freedom are those willing to pay more for the potential to outperform the market or benchmark indices over the long term but should be aware that the potential to underperform is just as great. Clients most appropriate for the ETF version of Freedom are those willing to achieve market-like returns, less management fees and operating expenses, with little potential for the individual ETFs to outperform the respective indices they track.

Mutual fund strategies can include “highly recommended” funds from the RJA mutual fund research (“MFR”) coverage list. If a fund is downgraded by MFR, RJA will determine the appropriate course of action, which may include replacing the downgraded fund in all Freedom accounts for which it serves as sub-advisor. However, RJA is under no obligation to select funds exclusively from MFR’s “highly recommended” list. RJA monitors all funds in the Freedom accounts, regardless if they are covered by MFR. Mutual funds are purchased at Net Asset Value.

The Raymond James Consulting Services Program

For clients participating in the Raymond James Consulting Services Program, the Registrant selects the appropriate investment discipline(s) to be followed for the client’s account. As sub-advisor to the Registrant, RJA then recommends and monitors one or more third-party Managers with which RJA has entered into a separate sub-advisory agreement. Some Managers provide RJA model portfolios representing securities recommended by the Manager for designated investment disciplines and thereafter communicate periodic updates to RJA as changes occur to such model portfolios.

If the Registrant selects a model portfolio investment discipline for a client, RJA has discretionary authority to effect purchases and sales of model portfolio securities for the client’s account. For all other investment disciplines in this program not classified as model portfolios, the Manager will exercise discretionary investment authority over the client’s account based on the selected investment discipline(s) and the client’s profile.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone separate fee basis.

Prior to engaging the Registrant to provide planning or consulting services, clients are generally required to enter into an agreement with Registrant setting forth the terms and conditions of the engagement (including termination), describing the scope of the services to be provided, and the portion of the fee that is due from the client prior to Registrant commencing services.

It remains the client’s responsibility to promptly notify the Registrant if there is ever any change in their financial situation or investment objectives for the purpose of reviewing, evaluating or revising Registrant’s previous recommendations and/or services.

RETIREMENT PLAN SERVICES

The Registrant also provides retirement plan consulting services, pursuant to which it assists sponsors of self-directed and pooled retirement plans organized under the Employee Retirement Security Act of 1974 (“ERISA”). The terms and conditions of the engagement shall be set forth in the agreement between the Registrant and the plan sponsor.

If the plan sponsor engages the Registrant in either an ERISA Section 3(21) or Section 3(38) capacity, the Registrant will assist with the selection and/or monitoring of investment options (generally open-end mutual funds and exchange traded funds) from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts.

MISCELLANEOUS

Limitations of Financial Planning and Non-Investment Consulting/Implementation Services. As indicated above, to the extent requested by a client, Registrant may provide financial planning and related consulting services inclusive of its advisory fee as set forth at Item 5 below (exceptions may occur based upon assets under management, special projects, etc., for which the Registrant may charge a separate fee). However, neither the Registrant nor its investment adviser representatives assist clients with the implementation of any financial plan, unless they have agreed to do so in writing. The

Registrant does not monitor a client's financial plan, unless specifically engaged to do so, and it is the client's responsibility to revisit the financial plan with the Registrant, if desired.

Furthermore, although the Registrant may provide recommendations regarding non-investment related matters, such as estate planning, tax planning and insurance, the Registrant does not serve as an attorney or accountant, and no portion of its services should be construed as legal or accounting services. Accordingly, the Registrant **does not** prepare estate planning documents or tax returns.

To the extent requested by a client, the Registrant may recommend the services of other professionals for certain non-investment implementation purposes (i.e. attorneys, accountants, insurance, etc.), including certain of the Registrant's representatives in their individual capacities as registered representatives of a broker-dealer or as licensed insurance agents (See disclosure at Item 10.C below). The client is under no obligation to engage the services of any such recommended professional. The client retains absolute discretion over all such implementation decisions and is free to accept or reject any recommendation from Registrant and/or its representatives.

If the client engages any recommended unaffiliated professional, and a dispute arises thereafter relative to such engagement, the client agrees to seek recourse exclusively from and against the engaged professional. At all times, the engaged licensed professional(s) (i.e. attorney, accountant, insurance agent, etc.), and **not** the Registrant, shall be responsible for the quality and competency of the services provided.

Use of Mutual and Exchange Traded Funds: Most mutual funds and exchange traded funds are available directly to the public. Therefore, a prospective client can obtain many of the funds that may be utilized by Registrant independent of engaging Registrant as an investment advisor. However, if a prospective client determines to do so, he/she will not receive Registrant's initial and ongoing investment advisory services.

In addition to Registrant's investment advisory fee described below, and transaction and/or custodial fees discussed below, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

Retirement Plan Rollovers—Conflict of Interest: A client or prospective client leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) roll over the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) roll over to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). If the Registrant recommends that a client roll over their retirement plan assets into an account to be managed by the Registrant, such a recommendation creates a conflict of interest if the Registrant will earn an advisory fee on the rolled over assets. **No client is under any obligation to roll over retirement plan assets to an account managed by Registrant.**

Independent Managers: Registrant may recommend that the client allocate a portion of a client's investment assets among unaffiliated independent investment managers ("Independent Manager(s)") in accordance with the client's designated investment objective(s). In such situations, the Independent Manager(s) will have day-to-day responsibility for the active discretionary management of the allocated assets. Registrant will continue to render investment supervisory services to the client relative to the ongoing monitoring and review of account performance, asset allocation, and client investment objectives. The Registrant generally considers the following factors when recommending Independent Manager(s): the client's designated investment objective(s), management style, performance, reputation, financial strength, reporting, pricing, and research. **The investment management fees charged by the designated Independent Manager(s) are exclusive of, and in addition to, Registrant's ongoing investment advisory fee**, subject to the terms and conditions of a separate agreement between the client and the Independent Manager(s). Registrant's advisory fee is set forth in the fee schedule at Item 5 below.

Non-Discretionary Service Limitations. Clients that determine to engage Registrant on a non-discretionary investment advisory basis **must be willing to accept** that Registrant cannot affect any account transactions without obtaining prior consent to such transaction(s) from the client. Therefore, in the event that Registrant would like to make a transaction for a

client's account (including in the event of an individual holding or general market correction), and the client is unavailable, the Registrant will be unable to effect the account transaction(s) (as it would for its discretionary clients) **without first obtaining the client's consent.**

Variable Annuity Management: The Registrant allocates client investment assets on a discretionary or non-discretionary basis among the investment sub accounts of variable annuity products previously purchased by the client. The Registrant manages the variable annuity consistent with the client's investment objective. Of course, there can be no assurance or guarantee that the Registrant's market decisions will be correct or profitable. The Registrant includes the variable product assets as part of "assets under management" for the purposes of calculating its annual advisory fee.

Private Investment Funds. Registrant may recommend that certain qualified clients consider an investment in unaffiliated private investment funds. Registrant's role relative to the private investment funds shall be limited to its initial and ongoing due diligence and investment monitoring services. Registrant's clients are under absolutely no obligation to consider or make an investment in a private investment fund(s).

Private Investment Fund Risk Factors: Private investment funds generally involve various risk factors, including, but not limited to, potential for complete loss of principal, liquidity constraints and lack of transparency, a complete discussion of which is set forth in each fund's offering documents, which will be provided to each client for review and consideration. Unlike liquid investments that a client may own, private investment funds do not provide daily liquidity or pricing. Each prospective client investor will be required to complete a Subscription Agreement, pursuant to which the client shall establish that they are qualified for investment in the fund and acknowledges and accepts the various risk factors that are associated with such an investment.

Valuation: If Registrant bills an investment advisory fee based upon the value of private investment funds or otherwise references private investment funds owned by the client on any supplemental account reports prepared by Registrant, the value for all private investment funds owned by the client will reflect the most recent valuation provided by the fund sponsor. The current value of any private investment fund could be significantly more or less than the original purchase price or the price reflected in any supplemental account report.

Exchange Traded Notes. ETNs are unsecured debt obligation of the issuer, that trade on exchanges and seek a return linked to a market index or other benchmark. Unlike ETFs, ETNs do not buy or hold assets to replicate or approximate the performance of the underlying index. The return on an ETN generally depends on price changes if the ETN is sold before maturing (as with stocks or ETFs)— or on the payment, if any, of a distribution if the ETN is held to maturity (as with some other structured products). An ETN's indicative value is computed by the issuer and is distinct from an ETN's market price, which is the price at which an ETN trades in the secondary market. An ETN's market price can deviate, sometimes significantly, from its indicative value.

Portfolio Activity. Registrant has a fiduciary duty to provide services consistent with the client's best interest. As part of its investment advisory services, Registrant will review client portfolios on an ongoing basis to determine if any changes are necessary based upon various factors, including, but not limited to, investment performance, fund manager tenure, style drift, account additions/withdrawals, and/or a change in the client's investment objective. Based upon these factors, there may be extended periods of time when Registrant determines that changes to a client's portfolio are neither necessary nor prudent. Clients nonetheless remain subject to the fees described in Item 5 below during periods of account inactivity.

Cash Positions: Depending upon perceived or anticipated market conditions/events (there being no guarantee that such anticipated market conditions/events will occur), the Registrant may maintain cash and cash equivalent positions (such as money market funds) for defensive and liquidity purposes. Unless otherwise agreed in writing, all such cash positions are included as part of assets under management for purposes of calculating the Registrant's advisory fee.

Client Obligations. In performing its services, Registrant shall not be required to verify any information received from the client or from the client's other professionals and is expressly authorized to rely thereon. Moreover, each client is advised that it remains their responsibility to promptly notify the Registrant if there is ever any change in their financial situation or

investment objectives for the purpose of reviewing, evaluating or revising Registrant’s previous recommendations and/or services.

Disclosure Statement. A copy of the Registrant’s written Brochure and CRS, as set forth on Parts 2 and 3 of *Form ADV*, respectively, shall be provided to each client prior to the execution of any new advisory agreement.

- C. The Registrant shall provide investment advisory services specific to the needs of each client. Prior to providing investment advisory services, an investment adviser representative will ascertain each client’s investment objective(s). Thereafter, the Registrant shall allocate and/or recommend that the client allocate investment assets consistent with the designated investment objective(s). The client may, at any time, impose reasonable restrictions, in writing, on the Registrant’s services.
- D. The Registrant does not participate in a wrap fee program.
- E. As of June 30, 2021, the Registrant had \$0 in assets under management.

5. Fees and Compensation

A. INVESTMENT ADVISORY SERVICES

The Registrant provides discretionary and non-discretionary investment advisory services on a negotiable fee only basis. The Registrant’s annual investment advisory fee shall be based upon a percentage (%) of the market value of the assets placed under the Registrant’s management, generally ranging between 0.40% and 1.30%, as follows:

Amounts less than \$500,000	
First \$500,000	1.30%
Amounts greater than \$500,000	
First \$1,000,000	1.0%
Next \$4,000,000	0.85%
Next \$5,000,000	0.70%
Next \$10,000,000	0.50%
Amounts over \$20,000,000	0.40%

The Registrant, in its sole discretion, may charge a lesser investment management fee and/or a fixed fee based upon certain criteria (i.e. anticipated future earning capacity, anticipated future additional assets, dollar amount of assets to be managed, related accounts, account composition, negotiations with client, etc.). As result of the above, similarly situated clients could pay different fees. In addition, similar advisory services may be available from other investment advisers for similar or lower fees.

FINANCIAL PLANNING AND CONSULTING SERVICES (STAND-ALONE)

The Registrant may provide financial planning and/or consulting services (including investment and non-investment related matters, including estate planning, insurance planning, etc.) on a stand-alone fee basis. Registrant’s planning and consulting fees are negotiable, but generally range from \$500 to \$15,000 on a fixed fee basis, and from \$100 to \$500 on an hourly rate basis, depending upon the level and scope of the service(s) required and the professional(s) rendering the service(s).

RETIREMENT PLAN SERVICES

The Registrant provides retirement plan consulting services, in the capacity of either a 3(21) or 3(38) advisor, pursuant to which it assists sponsors of self-directed retirement plans with the selection and/or monitoring of investment alternatives from which plan participants shall choose in self-directing the investments for their individual plan retirement accounts. The Registrant's annual fee for these services shall generally range from negotiable up to 1.00% of the total assets maintained within the plan.

- B.** Clients may elect to have the Registrant's advisory fees deducted from their custodial account. Both Registrant's Agreement and the custodial/clearing agreement may authorize the custodian to debit the account for the amount of the Registrant's investment advisory fee and to directly remit that advisory fee to the Registrant in compliance with regulatory procedures. In the limited event that the Registrant bills the client directly, payment is due upon receipt of the Registrant's invoice.

Registrant shall treat intra-quarter account additions and withdrawals equally. Specifically, Registrant does not generally adjust the quarterly fee for asset additions/withdrawals during the quarter unless the client adds or withdraws from the account more than \$100,000 on a net basis on any single market day. In such event, Registrant shall charge a pro-rated fee or issue a pro-rated reimbursement based upon the number of days remaining in the billing quarter.

- C.** As discussed below, unless the client directs otherwise or an individual client's circumstances require, Registrant shall generally recommend that Raymond James & Associates ("Raymond James") serve as the broker-dealer/custodian for client investment management assets. Broker-dealers such as Raymond James may charge transaction fees for effecting certain securities transactions.

In addition to the Registrant's investment management fee and/or transaction fees, clients will also incur, relative to all mutual fund and exchange traded fund purchases, charges imposed at the fund level (e.g. management fees and other fund expenses).

- D.** Registrant's annual investment advisory fee shall be prorated and paid quarterly, in advance, based upon the market value of the assets on the last business day of the previous month.

The Registrant has engaged a third-party to assist with certain administrative responsibilities, including fee calculations. Based upon the third-party's account valuation practices, accrued interest on debt positions is included when determining the client's account value for billing purposes, even though it may appear as a credit in the client's custodial account by quarter close.

With the exception of a financial planning engagement on a project basis, which may automatically terminate upon the completion of the project, agreements between the Registrant and the client will continue in effect until terminated by either party by written notice in accordance with the terms of the Agreement.

- E.** Neither the Registrant, nor its representatives accept compensation from the sale of securities or other investment products.

6. Performance-Based Fees and Side-by-Side Management

Neither the Registrant nor any supervised person of the Registrant accepts performance-based fees.

7. Types of Clients

The Registrant's clients shall generally include individuals, qualified plans, business entities, trusts, and estates.

8. Methods of Analysis, Investment Strategies and Risk of Loss

- A.** The Registrant may utilize the following methods of security analysis:

- **Fundamental**—(analysis performed on historical and present data, with the goal of making financial forecasts)
- **Qualitative Analysis**—(subjective evaluation of non-quantifiable factors and attempt to potentially predict changes to share price based on that data)

The Registrant may utilize the following investment strategies when implementing investment advice given to clients:

- **Long Term Purchases** (securities held at least a year)
- **Short Term Purchases** (securities sold within a year)

Investment Risk. Investing in securities involves risk of loss that clients should be prepared to bear. Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by the Registrant) will be profitable or equal any specific performance level(s).

All investment strategies have certain risks that are borne by the investor. Although there is no way to list all risks involved with investing, the following are common risks borne by the majority of investors:

Interest Rate Risk: Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, bond prices generally fall.

Market Risk: Asset prices may drop in reaction to certain unforeseen events. Also referred to as exogenous risk, this type of risk is caused by external factors independent of a security's particular underlying fundamentals or intrinsic value. For example, geo-political, economic, legislative, and/or societal events may amplify market risk.

Inflation Risk: When inflation is present, a dollar today will not buy as much as a dollar next year, because purchasing power is eroding at the rate of inflation.

Currency Risk: Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.

Reinvestment Risk: This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.

Business Risk: These risks are associated with a particular industry or a particular company within an industry. Some industries and/or companies may have historically demonstrated more stability than others. Economic factors and business functions are constantly changing. Past results are no guarantee of future performance.

Liquidity Risk: Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product.

Financial Risk: Also referred to as leverage risk. Excessive borrowing to finance a business' operations may lead to financial strain and the ability to generate profits or meet certain obligations. During periods of financial stress, the inability to meet loan obligations may result in bankruptcy and/or a declining market value.

Counterparty Risk: The risk that each party may not be able to meet its contractual obligations. This may also be referred to as default risk for fixed income investments. In rare circumstances, the underlying securities within registered investment products may become illiquid which may restrict the ability of investors to redeem shares at quoted prices.

Execution Risk: The risk that buy/sell transactions may not be executed at favorable prices. This may occur during periods of abnormal market conditions.

- B.** The Registrant's methods of analysis and investment strategies do not present any significant or unusual risks. However, every method of analysis has its own inherent risks. To perform an accurate market analysis the Registrant must have access to current/new market information. The Registrant has no control over the dissemination rate of market information; therefore, unbeknownst to the Registrant, certain analyses may be compiled with outdated market information, severely limiting the value of the Registrant's analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction

of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

The Registrant's primary investment strategies - Long Term Purchases and Short Term Purchases are fundamental investment strategies. However, every investment strategy has its own inherent risks and limitations. For example, longer term investment strategies require a longer investment time period to allow for the strategy to potentially develop. Shorter term investment strategies require a shorter investment time period to potentially develop but, as a result of more frequent trading, may incur higher transactional costs when compared to a longer term investment strategy.

- C. Currently, the Registrant primarily recommends that clients allocate investment assets among various individual equity (stocks), debt (bonds) and fixed income securities, mutual funds or ETFs on a discretionary basis in accordance with the client's designated investment objective(s).

9. Disciplinary Information

The Registrant has not been the subject of any disciplinary actions.

10. Other Financial Industry Activities and Affiliations

- A. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.
- B. Neither the Registrant, nor its representatives, are registered or have an application pending to register, as a futures commission merchant, commodity pool operator, a commodity trading advisor, or a representative of the foregoing.
- C. **Licensed Insurance Agents.** Certain of the Registrant's representatives, in their individual capacities, are licensed insurance agents. These individuals may recommend the purchase of certain insurance-related products on a commission basis. As referenced in Item 4.B above, clients can engage certain of Registrant's representatives to purchase insurance products on a commission basis.

Conflict of Interest: The recommendation by representatives of the Registrant that a client purchase an insurance commission products presents a conflict of interest, as the receipt of commissions may provide an incentive to recommend insurance products based on commissions to be received, rather than on a particular client's need. No client is under any obligation to purchase any commission products from representatives of the Registrant. Clients are reminded that they may purchase insurance products recommended by Registrant through other, non-affiliated representatives of a broker-dealer or insurance agents.

- D. The Registrant does not receive, directly or indirectly, compensation from investment advisors that it recommends or selects for its clients.

11. Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

- A. The Registrant maintains an investment policy relative to personal securities transactions. This investment policy is part of Registrant's overall Code of Ethics, which serves to establish a standard of business conduct for all of Registrant's Representatives that is based upon fundamental principles of openness, integrity, honesty and trust, a copy of which is available upon request.
- B. In accordance with Section 204A of the Investment Advisers Act of 1940, the Registrant also maintains and enforces written policies reasonably designed to prevent the misuse of material non-public information by the Registrant or any person associated with the Registrant.
- C. Neither the Registrant nor any related person of Registrant recommends, buys, or sells for client accounts, securities in which the Registrant or any related person of Registrant has a material financial interest.

The Registrant and/or representatives of the Registrant may buy or sell securities that are also recommended to clients. This practice may create a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. Practices such as “scalping” (i.e., a practice whereby the owner of shares of a security recommends that security for investment and then immediately sells it at a profit upon the rise in the market price which follows the recommendation) could take place if the Registrant did not have adequate policies in place to detect such activities. In addition, this requirement can help detect insider trading, “front-running” (i.e., personal trades executed prior to those of the Registrant’s clients) and other potentially abusive practices.

The Registrant has a personal securities transaction policy in place to monitor the personal securities transactions and securities holdings of each of the Registrant’s “Access Persons”. The Registrant’s securities transaction policy requires that an Access Person of the Registrant must provide the Chief Compliance Officer or his/her designee with a written report of their current securities holdings within ten (10) days after becoming an Access Person. Additionally, each Access Person must provide the Chief Compliance Officer or his/her designee with a written report of the Access Person’s current securities holdings at least once each twelve (12) month period thereafter on a date the Registrant selects.

- D. The Registrant and/or representatives of the Registrant may buy or sell securities, at or around the same time as those securities are recommended to clients. This practice creates a situation where the Registrant and/or representatives of the Registrant are in a position to materially benefit from the sale or purchase of those securities. Therefore, this situation creates a conflict of interest. As indicated above in Item 11.C, the Registrant has a personal securities transaction policy in place to monitor the personal securities transaction and securities holdings of each of Registrant’s Access Persons.

12. Brokerage Practices

- A. In the event that the client requests that Registrant recommend a broker-dealer/custodian for execution and/or custodial services (exclusive of those clients that may direct Registrant to use a specific broker-dealer/custodian), Registrant recommends that investment management accounts be maintained at Raymond James. Prior to engaging Registrant to provide investment management services, the client will be required to enter into a formal advisory agreement with the Registrant setting forth the terms and conditions under which Registrant shall manage the client’s assets, and a separate custodial/clearing agreement with each designated broker-dealer/custodian.

Factors that Registrant considers in recommending Raymond James (or any other broker-dealer/custodian to clients) include historical relationship with Registrant, financial strength, reputation, execution capabilities, pricing, research, and service. Although the commissions and/or transaction fees paid by Registrant’s clients shall comply with Registrant’s duty to seek best execution, a client may pay a commission that is higher than another qualified broker-dealer might charge to effect the same transaction where Registrant determines, in good faith, that the commission/transaction fee is reasonable. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer’s services, including the value of research provided, execution capability, commission rates, and responsiveness. Accordingly, although Registrant will seek competitive rates, it may not necessarily obtain the lowest possible commission rates for client account transactions. The brokerage commissions or transaction fees charged by the designated broker-dealer/custodian are exclusive of, and in addition to, Registrant’s investment management fee. Registrant’s best execution responsibility is qualified if securities that it purchases for client accounts are mutual funds that trade at net asset value as determined at the daily market close.

1. Research and Additional Benefits

Although not a material consideration when determining whether to recommend that a client utilize the services of a particular broker-dealer/custodian, Registrant receives from Raymond James (or another broker-dealer/custodian, investment platform, unaffiliated investment manager, vendor, unaffiliated product/fund sponsor, or vendor) without cost (and/or at a discount) support services and/or products, certain of which assist Registrant to better monitor and service client accounts maintained at such institutions. Included within the support services that may be obtained by Registrant may be investment-related research, pricing information and market data, software and other technology that provide access to client account data, compliance and/or practice management-related publications, discounted or gratis consulting services, discounted and/or gratis attendance at conferences, meetings, and other educational

and/or social events, marketing support, computer hardware and/or software and/or other products used by Registrant in furtherance of its investment advisory business operations.

2. Registrant does not receive referrals from broker-dealers.
3. Registrant does not generally accept directed brokerage arrangements (when a client requires that account transactions be effected through a specific broker-dealer). In such client directed arrangements, the client will negotiate terms and arrangements for their account with that broker-dealer, and Registrant will not seek better execution services or prices from other broker-dealers or be able to “batch” the client’s transactions for execution through other broker-dealers with orders for other accounts managed by Registrant. As a result, client may pay higher commissions or other transaction costs or greater spreads, or receive less favorable net prices, on transactions for the account than would otherwise be the case.

In the event that the client directs Registrant to effect securities transactions for the client’s accounts through a specific broker-dealer, the client correspondingly acknowledges that such direction may cause the accounts to incur higher commissions or transaction costs than the accounts would otherwise incur had the client determined to effect account transactions through alternative clearing arrangements that may be available through Registrant. Higher transaction costs adversely impact account performance.

Transactions for directed accounts will generally be executed following the execution of portfolio transactions for non-directed accounts.

- B.** To the extent that the Registrant provides investment management services to its clients, the transactions for each client account generally will be effected independently, unless the Registrant decides to purchase or sell the same securities for several clients at approximately the same time. The Registrant may (but is not obligated to) combine or “bunch” such orders to seek best execution, to negotiate more favorable commission rates or to allocate equitably among the Registrant’s clients differences in prices and commissions or other transaction costs that might have been obtained had such orders been placed independently. Under this procedure, transactions will be averaged as to price and will be allocated among clients in proportion to the purchase and sale orders placed for each client account on any given day. The Registrant shall not receive any additional compensation or remuneration as a result of such aggregation.

13. Review of Accounts

- A.** For those clients to whom Registrant provides investment supervisory services, account reviews are conducted on an ongoing basis by the Registrant’s Managing Member and/or representatives. All investment supervisory clients are advised that it remains their responsibility to advise the Registrant of any changes in their investment objectives and/or financial situation. All clients (in person or via telephone) are encouraged to review financial planning issues (to the extent applicable), investment objectives and account performance with the Registrant on an annual basis.
- B.** The Registrant may conduct account reviews on an other than periodic basis upon the occurrence of a triggering event, such as a change in client investment objectives and/or financial situation, market corrections and client request.
- C.** Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

14. Client Referrals and Other Compensation

- A.** As referenced in Item 12.A.1 above, the Registrant receives an economic benefit from broker-dealers. The Registrant, without cost (and/or at a discount), receives support services and/or products from broker-dealers.

There is no corresponding commitment made by the Registrant to a broker-dealer or any other entity to invest any specific amount or percentage of client assets in any specific mutual funds, securities or other investment products as a result of the above arrangement.

- B. Neither the Registrant nor any management person of the Registrant compensates, directly or indirectly, any non-supervised person for client referrals.

15. Custody

The Registrant shall have the ability to have its advisory fee for each client debited by the custodian on a quarterly basis. Clients are provided, at least quarterly, with written transaction confirmation notices and regular written summary account statements directly from the broker-dealer/custodian and/or program sponsor for the client accounts. The Registrant may also provide a written periodic report summarizing account activity and performance.

To the extent that the Registrant provides clients with periodic account statements or reports, the client is urged to compare any statement or report provided by the Registrant with the account statements received from the account custodian.

The account custodian does not verify the accuracy of the Registrant's advisory fee calculation.

The Registrant provides other services on behalf of its clients that require disclosure at [Form ADV Part 1, Item 9](#). In particular, certain clients have signed asset transfer authorizations that permit the qualified custodian to rely upon instructions from the Registrant to transfer client funds to "third parties." In accordance with the guidance provided in the SEC Staff's February 21, 2017 Investment Adviser Association No-Action Letter, the affected accounts are not subjected to an annual surprise CPA examination.

16. Investment Discretion

The client can determine to engage the Registrant to provide investment advisory services on a discretionary basis. Prior to the Registrant assuming discretionary authority over a client's account, the client shall be required to execute an Investment Advisory Agreement, naming the Registrant as the client's attorney and agent in fact, granting the Registrant full authority to buy, sell, or otherwise effect investment transactions involving the assets in the client's name found in the discretionary account.

Clients who engage the Registrant on a discretionary basis may, at any time, impose restrictions, **in writing**, on the Registrant's discretionary authority (i.e. limit the types/amounts of particular securities purchased for their account, exclude the ability to purchase securities with an inverse relationship to the market, limit or proscribe the Registrant's use of margin, etc.).

17. Voting Client Securities

- A. The Registrant does not vote client proxies. Clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets.
- B. Clients will receive their proxies or other solicitations directly from their custodian. Clients may contact the Registrant to discuss any questions they may have with a particular solicitation.

18. Financial Information

- A. The Registrant does not require clients to pay fees of more than \$1,200, per client, six months or more in advance.
- B. The Registrant is unaware of any financial condition that is reasonably likely to impair its ability to meet its contractual commitments relating to its discretionary authority over certain client accounts.
- C. The Registrant has not been the subject of a bankruptcy petition.
